Anlegeruten als Set

Anlegeruten

Die Anlegeruten sind ein sicherer und preiswerter Weg, Ihr Boot vor kostspieligen Steg­schäden zu schützen. Das Anlegerutensystem hält das Boot in einem bequemen und sicheren Abstand zum Steg. Dabei schützt es das Boot vor Wellen-, Wind- und Gezeitenschäden.

Die Anlegeruten sind aus einem soliden, hoch qualitativen Fiberglas gefertigt. Die Füße bestehen aus einer Aluminium-Magnesiumlegierung. Das Set enthält weiterhin die benötigten Anlegeleinen. Die Anlegeruten werden als Paar verkauft. Sie können sehr einfach zum Verstauen entfernt werden.

Mooring whips

Mooring whips are an economical and safe way to protect your boat against costly dockside and seawall damage. The Mooring whips system pulls your boat a safe, convenient distance away from the dock, thereby protecting it from the damaging forces of waves, wind, tides and wakes.

Mooring whips are made of high quality solid fiberglass poles, aluminium-magnesium base units, roller tips and Mooring whip lines. Each set will be delivered with all of the hardware necessary for installation. Mooring whips and Premium Mooring whips are sold in pairs. The PWC Mooring whip is a one-pole system with a flush mount base and is commonly used on swim platforms. Whips can be easily removed for storage.
